

Kraft Paper Sticker Stock.

Product

Wausau Coated - Buffalo Kraft

Brand

Ball & Doggett

Website

www.ballanddoggett.com.au

Product Description

A label material consisting of a brown kraft facestock with a cold temperature permanent acrylic adhesive and a supercalendered bleached kraft liner. The brown kraft face has the appearance of a classic brown paper bag, suitable for both inkjet and laser printing, and offers a natural, rustic look for labels.

Features

- True brown kraft color and texture for a “rustic” and earthy appearance
- Compatible with both inkjet and laser printers
- Good initial tack and adhesion to many surfaces (plastics, films, glass, painted metals)
- Clean cutting and die-cutting performance
- Liner offers excellent die-cutting and stripping properties
- Multiple safety and environmental certifications (REACH, RoHS, FDA food contact compliance, child toy safety)

Applications

- Candle labelling
- Food, art, and craft labelling
- Gourmet product packaging
- Any label application seeking a natural or vintage aesthetic

Not Recommended For

- Surfaces that are dirty or oily
- Extremely rough, curved, or flexible substrates
- Applications expecting removable or repositionable labels

Technical Specifications

Face Stock	81.4 gsm 55# Brown Kraft
Face Stock Thickness	150µm
Liner	CCK, 135gsm, 200µm
Total Weight (Sheet)	216.4gsm
Adhesive Type	PCT-6950, cold temperature, emulsion acrylic, permanent
Adhesive pH	Alkaline
Adhesive Certifications	FDA 21 CFR 175.105 (indirect food contact), REACH, RoHS, CONEG, toy safety, etc.
