Ecofoil Digital Self Adhesive Label SPX

**Brand**

Spicers

**Website**

[www.spicers.com.au](http://www.spicers.com.au)

**Product Description**

A unique metallised foil label material, specifically designed for digital print markets including HP Indigo, Dry Toner, and Inkjet technologies. Ecofoil is 100% recyclable, certified plastic-free, and mimics the look and feel of metallic polyester-based substrates, delivering true metallic gloss effects for labels and packaging with high sustainability.

**Features**

- Certified plastic free: No metallic polyester/film, 100% recyclable as paper board.
- Digital printing certified: Runs on HP Indigo, Dry Toner, and Inkjet digital presses.
- High gloss: Metallic shine that matches conventional foil boards or metallic inks.
- Runs at commercial print speeds: No static build-up.
- Versatile post-press compatibility: Can be folded, embossed, debossed, foiled, UV varnished, laminated, and bookbound.
- Variety of looks: Available in Silver, Gold, and Rainbow holographic patterns.
- Multiple sizes and adhesive options: Removable or permanent adhesive, SRA3+ sheets, several grammages.
- Sustainability certifications: ISO 9001 / ISO 14001.

**Applications**

- Candle labelling
- Food, art, and craft labelling
- Gourmet product packaging
- Any label application seeking a natural or vintage aesthetic

**Not Recommended For**

- Applications requiring guaranteed performance in unique or highly specialized processes without prior testing.
- Jobs needing a non-metallic finish.
- Printing methods outside HP Indigo, Dry Toner, and Inkjet without thorough testing.
- Outdoor or wet environments
